2014 Manitoba Woman Entrepreneur of the Year Awards
Att: Award Judges

Re: 2014 Manitoba Woman Entrepreneur of the Year Awards

We are thrilled to hear that Faye Fossay of F3 Designs has been nominated as a candidate for the 2014 Woman Entrepreneur of the Year! In our opinion, a very fitting title for Faye.

Derek Erb Seeds Inc. has been using the talents of Faye Fossay since 2008, and each year she exceeds our expectations. She created our website, and over the years has updated and maintained our site for us.

As her clients we have become accustomed to her exceptional organizational skills, friendly customer service, her technology expertise and her ability to break technical jargon down for us. We rely on her knowledge, and consider her an essential member of our team. She keeps our most important salesman (our website) fresh, up to date, and running smoothly. She has an eye for style and is able to add or suggest ideas which make our site better.

Faye is always on top of things. I recall not too long ago telling Faye she could easily run a country. She is always "on task" and helps her customers stay focused in a way that makes web developing fun. Faye also has similar values as Derek Erb Seeds Inc., and to our customers. She is hard working and loves what she does, and it shows in the quality of her work and how she runs her business.

Being a farm wife is a huge undertaking. Then you add on being a successful business owner with clients who respect you, and feel as though she is devoting 110% of yourself to clients like us. This is no easy task, we are sure. However, Faye successfully pulls it off each and every day.

We are very happy for Faye, and should she not be selected as your 2014 recipient, we feel she has already achieved this each time we work with her!

Sincerely,

Derek & Erin Erb
